Pain Points

Bad experience with roommates or homeowners.	A lot of word of mouth leasing/only local community knows.	Craigslist is the easiest, but most unreliable.
No platform provides reliable users and rooms at the same time.	Managing bills/other housing problems.	Complicated process after the connection.

Needs

Reliable users.	Connection between new user and already using users.	Able to manage the housing with roommates conveniently.
Reliable housing tool.	Able to match with the people that suits user's lifestyle needs.	Easy process.
Guidance how to get a roommate in new community.		

Features

Match system.	Specific preferences/lifestyle needs on profile.	Group Chat.
Find by Group.	Find by highest matchings.	Percentage on matching.
Search by hash tags.	Splitting bills.	Records of the bill payments.
Group profile.	User profile.	House profile.

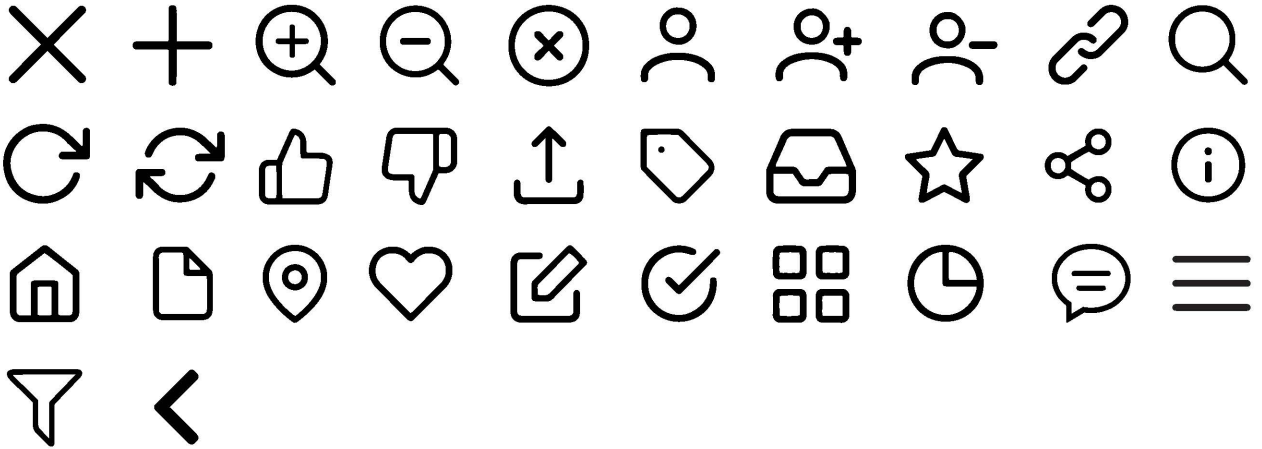

All Live. All Smile.

Housing app that not only connects people who are looking for a room, but becomes a part of their co-living experience.

Allive is a hub that connect people who are looking for a housing or a roommates by matching lifestyle needs, and linking to a specialized community preference with those of leaseholder and homeowners, to create quality connection that promote enjoyable co-living.
